OPEN SPACE VISITOR CENTER

LAND/ART
FIELD GUIDE

Located at 6500 Coors (between Montano and Paseo del Norte) the Open Space Visitor Center (OSVC) will host a collection of land based artworks by local artists. On June 21st, the Summer Solstice, we will hold an opening to commemorate these artists. There will be a performance based on water at 2:30 pm to coincide with the opening and there will be guided tours of the LAND/ART in the Bosque and in the OSVC Gallery.

LAND ART
Art • Nature • Community

X1	Future 1 st for the Arts Site	Finalists' models and visual materials will be on public display at the Open Space Visitor Center (OSVC) in July
X2	A Peculiar Hush Danielle Rae Miller	An installation of dead wood tree branches from the Bosque and light and shadow-play inside the OSVC
X3 X4 X6	Three Pole Sculptures Matthew Chase-Daniel	An installation of three pole sculptures composed from natural, locally-gathered materials of the Bosque
X5	Salt Cedar + Jetty Jacks = Green Jill Guarino Brown	An installation that provides a use for the existing Jetty Jacks to become water harvesting features within the Bosque
X7	Painted Jetty Jacks Zach Meisner	Re-coloring of the existing Jetty Jacks, altering the appearance of their presence in the Bosque
X8	Cube Robert Wilson	An installation made from a segment of fallen cottonwood trunk at its core, and reclaimed heavy-gauge wire coiled sparingly into open rectangular building blocks that will surround the trunk
X9	Arboreal Dome Benjamin Forgey	Constructed of downed, dead cottonwood branches found in the Bosque

Please consult the LAND/ART website for more information about projects at www.landartnm.org
